

About Us...

Niles College goal is to provide a vigorous guidance in day-to-day life education and training in various and multi-ethnic societies. We are here to educate adults to become highly skilled, compassionate, operational and capable entry-level healthcare providers.

We measured instruction and knowledge as a connection based on conglomerates where students' experiences are treasured.

Our Mission ...

Niles College's primary directive is to cultivate a love of learning and to supply our students with the necessary tools and technical training.

Our primary goal is to prepare our students as providers of care across the healthcare environment and as members of their profession. Our program is responsive to the changing healthcare needs of the community, state and nation.

Our nursing programs will not only meet but exceed the growing demands for healthcare providers in a hospital and/or healthcare environments.

For us, teaching is more than just imparting knowledge.

OUR VISION...

- To educate students to become highly skilled, compassionate, operational and capable entry-level healthcare providers
- To provide students a positive, innovative learning framework that fosters the development of critical thinking and problem solving skills
- To develop students to be effective communicators & be able to demonstrate.

OUR FACULTY

Niles College faculty trusts that teaching/learning is a constant and collaborative practice. With years of collective experience, they bring real-world knowledge, clinical skills, and personal passion to the study of nursing and the preparation for their profession.
